## March Session 1815

The viewers returned the following report to wit.

To the Commissioners of Belmont County. Gentlemen.

Agreeable to your order we met at the house of James Kelsey and proceeded to view the road through said Kelsleys, Seales and Simsons lands by making some alteration on Kelsleys and Simsons land which we are of opinion will shorten the distance of the road and fix it on better ground and by which it appears the said Kelsey and Simpson are satisfied. We are of opinion that the said alteration will not require a surveyor as it makes but a very small alteration. We have likewise examined the land of Matthew Scott and are of the opinion that said road is rather of a benefit to his place than a hurt.

Given under our hands this day and date above written

Charles Eekles, John Moore, James Pickett, William Gifford, Thomas Evans

The Commissioners ordered said alteration to be recorded a public highway and the old road agreeable to the survey between the different points of intersection to be vacated.
