Report of Viewers.

To the Board of Commissioners of Belmont County, Ohio:

In obedience to your order, issued at your July 29th, 1907 session, A. D. 1897, we the undersigned, Viewers appointed under said order, met with John A. Bond Surveyor, at Minnameyers Mill on September 10th, 1907 and were severally sworn to discharge, faithfully and impartially, the duties required of us in said order.

If any Viewer is unable to attend here state by whom the vacancy was filled.

Allen Bond, W. M. Foster, and Ernest Henry, W. A. Delong were selected by us as chain carriers, and G. M. Minnameyercy as a marker, who were also duly sworn.

We then proceeded to view said proposed Alteration on the line described in your order, and caused the same to be surveyed, "as prayed for in the petition, or as near the same as in our opinion a good road can be made at a reasonable expense, taking into consideration the utility, convenience, and inconvenience and expense which will result to individuals as well as the public," by the Alteration of said road as follows:

(For Description see Page 588, this volume)

We would respectfully report that the said Road ought to be Granted for the following reasons:

- First:-A great improvement over the old road. Second:- To evade two crossings of Creek;
- Third:- Take the Road back of the creek and place it on better Ground, said two crossings evaded are of a dangerous character in times of highwater and ice.

We have also determined that the public convenience requires that such Road shall be established 30 feet in width.

All of which is respectfully submitted,
