

# 2023 Safety Day

On April 21, 2023 all of the Belmont County Engineer's road crew, bridge crew, and office staff gathered at the Roscoe Garage for their annual safety training. The day started early with Captain Kyer & Chief Grady of the Cumberland Trail Fire Department providing a fire extinguisher training and demonstration. Other County partners like CORSA, Ohio State Patrol of Saint Clairsville, and the Emergency Management Agency offered presentations as well. The Engineer's Office employees are now better prepared to implement safety procedures for the year to come.

A Very Special  
Thank You to
